

# RN2CM PROGRAM

We know that making the shift from pure nursing to management in a leadership role can be challenging. Therefore we have designed a transition program to set you up for success in your leadership role.

The RN2CM program is practical and hands on between cycles of learning with the support you need from your manager and mentor to be ready for your management role. This is a six month program run at a hub level and sponsored by the RGM.

## **The purpose of the RN2CM program is to:**

- Instil the values, expectations and leadership work ethic in RNs
- Educate you on what it takes to be a Care Manager (CM) or other leadership roles as per the Essentials of High Performance
- Gives you the opportunity to experience aspects of that role
